With these numbers the pupil is able to add and to multiply two numbers together and to subtract a smaller from a larger. He understands the answer, for it is always a positive integer. But division cannot always be performed if we have only positive integers; for example, the division of 4 by 3 is set aside as impossible. A student knowing only the positive integers might learn to solve equations of some kinds. For example, the equations $4-x = 0$, $3x-6 = 0$, would give no difficulty, but the solution of the equation $2x-5 = 0$ would be declared impossible, for the student knows no numbers which will satisfy the equation. He might call the result imaginary. With the set of positive integers our elementary mathematics goes little further than counting; even the simple operation of measuring cannot be performed. For...
