

The Imagineers Chronicles Vol. 4 2013: A Journey Through Four Spatial Dimensions

By Mr Jeffrey B O'Callaghan

Createspace. Paperback. Book Condition: New. This item is printed on demand. Paperback. 268 pages. Dimensions: 9.0in. x 6.0in. x 0.6in. The purpose of the 45 articles in this volume of the The Imagineers Chronicles series is to show how changing ones perspective on the geometric structure of our universe from one of four dimensional space-time to four spatial dimensions can effect and simplify our understanding of the laws governing its evolution Articles in this book such as the The Fabric of the Cosmos and Finding the graviton integrate common sense into our conceptual analysis of the unobservable by extrapolating our every day experiences and observations to the cosmological realm of black holes, the evolutionary history of our universe and the discovery of the graviton. While the article Solving the Measurement Problem demonstrates how one can apply logic and the existence of four spatial dimensions to resolve many of the outstanding questions in quantum mechanics such as how or if the wavefunction collapses. We believe understanding nature should be attainable to those who have a need to and are willing to work at it so each article presents the concepts in jargon free language with enough background information so that the reader...
