California Student Environmental & Food Justice Movements

By Laura Solof

LAP Lambert Academic Publishing Sep 2014, 2014.

Taschenbuch. Book Condition: Neu. 220x150x10 mm. This item

is printed on demand - Print on Demand Neuware - Many

California public school students lack exposure to any formal,

academic curriculum that emphasizes environmental

awareness and activism. This may result in a population of

adults who believe they know more about the environment

than they actually do, lack the skills to compete in an

expanding green job market, lack creativity and the ability to

problem-solve, suffer from obesity, depression, anxiety, and

attention disorders, and unknowingly contribute to the ever-

increasing problems of air and water pollution, land and

habitat destruction, and other environmental injustices.

Community organizations and university programs are filling this much-needed gap in student environmental education, as they involve youth in understanding the principles of environmental activism, justice, and sustainability. But who are these students who are being informally educated to become tomorrow's environmental pioneers? It is these students who can provide a greater understanding of the motivations, life experiences, and community impact of environmental and food justice activists. 168 pp. English.

Reviews

Very beneficial for all type of folks. It can be really intriguing through studying time. You will like how the writer publishes this ebook.

Totally one of the better pdf I have at any time read through. It really is simplified but shocks within the 50% from the ebook. Once you begin to read the book, it is extremely difficult to leave it before concluding.
