Bibliogov, United States, 2013. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.On April 29, 2010, we issued our final report on the Consumer Assistance to Recycle and Save (CARS) program. The law that provided a supplemental appropriation for the program directed us to review the Department s administration of CARS. In addition, Senator Charles Grassley requested that we, in fulfilling the statutory mandate, pay particular attention to the Department s ability to assure program integrity. For the report, we: (1) examined the effectiveness of NHTSA s controls to ensure that CARS transactions met Federal requirements; (2) identified challenges NHTSA faced in implementing the program; and (3) assessed NHTSA s progress in closing out the program, including evaluating compliance and accounting for total program costs. We found that while NHTSA s controls ensured that most CARS transactions met basic program eligibility requirements-such as fuel efficiency, ownership, and insurance-controls related to trade-in vehicle disposal are less effective. In addition, we found that immediate consumer response and the infusion of additional program dollars presented significant challenges to NHTSA s implementation of the CARS program; and that NHTSA has begun to take action to evaluate program compliance and to determine total program costs-two major activities remaining to close out the CARS program. Implementing a comprehensive plan would help NHTSA more efficiently carry out these remaining close-out activities and better inform the Secretary of Transportation and Congress of its progress and overall program performance. In responding to a draft of this report, NHTSA concurred with our recommendations and provided a description of the actions it took to address the many challenges in implementing the program under tight deadlines.
