paperback. Book Condition: New. Ship out in 2 business day, And Fast shipping, Free Tracking number will be provided after the shipment. Paperback. Pages Number: 211 Publisher: National Defence Industry Press Pub. Date :2010-03-01. This book introduces the basic concepts of control engineering and basic knowledge. and MATLAB software in the control system analysis and design applications. The book is divided into seven chapters. including Introduction. the control system of mathematical models. the control system of time-domain analysis. frequency domain analysis of control systems. control systems. root locus. the control system integrated with the initial calibration and computer control systems and other parts. The book to a large number of instances of penetration of electro-mechanical system of control in the various chapters. with each chapter before the main. important and difficult and basic requirements chapter with a Summary and thinking questions and exercises. . easy to read to learn and consolidate what they have learned. And thinking in the book with some reference to answer questions and exercises to meet the classroom to help the reader an accurate understanding of the concepts. methods and techniques to master the problem-solving. Book chapters consistent. very systematic. Emphasis on the control theory in mechanical engineering. and mechanical systems with examples of systems analysis and design for the future use of control theory to solve practical problems in mechanical engineering foundation. This book can serve as application-oriented institutions mechanical engineering majors. measurement and control technology and equipment to professional and vocational college class automation specialty materials. but also as a field of engineering and technical personnel related reference books. Contents: Common symbol table Chapter 1 Introduction 1.1 Introduction 1.1.1 Development 1.1.2 MATLAB control theory engineering software 1.2 basic concept of the automatic control system automatic control system 1.2.1 1.2.2 works automatic control system of the...
