STATE OF MEDITERRANEAN FORESTS 2013

Food & Agriculture Organization of the United Nations (FAO). Paperback. Book Condition: new. BRAND NEW, State of Mediterranean Forests 2013, Food and Agriculture Organization, Forest ecosystems and other wooded lands are an important component of landscapes in the Mediterranean region, contributing significantly to rural development, poverty alleviation and food security. They are sources of wood, cork, energy, food and incomes, and they provide important ecosystem services such as biodiversity conservation, soil and water protection, recreation and carbon storage. They are crucial for many of the region's economic sectors, such as food supply, agriculture, soil and water conservation, drinking water supply, tourism and energy. Global changes (changes in societies, lifestyles and climate) strongly affect the Mediterranean region. If unmanaged, such changes could lead to the loss of biodiversity, an increased risk of wildfire, the degradation of watersheds, and desertification, with serious consequences for the sustainable provision of forest goods and ecosystem services.
