However, OMBs Federal Data Center Initiative guidance expands on DHS Migration Planning workstream to include additional activities and deliverables. For example, OMBs guidance contains the Application Mapping phase, as outlined below: Application mapping deliverables could be used to identify quick wins for the data center consolidation project. Quick wins include identifying business applications that have not been used in a year, or servers that have not been used in a month, and decommissioning them. Application mapping work products are also the blueprint on which subsequent virtualization, consolidation or migration to cloud computing analysis, plans, and actions will be based. DHS should consider updating its Data Management of DHS Data Center Consolidation Initiative Needs Improvement Page 11 This item ships from La Vergne, TN. Paperback.
