Hackett Publishing Company, Indianapolis, IN, U.S.A., 2006. Paperback. Book Condition: New. 8vo - over 7¾" - 9¾" tall. In substantial selections from his earliest writings, the "Notes on Virginia", his public papers, and his personal correspondence, this volume traces the development of Jefferson's thinking on such fundamental issues as republicanism, constitutionalism, political parties, and the separation of religion from politics. His proposals for the education of women, the emancipation of slaves, and the expatriation of Native Americans are included, along with a number of intimate letters illustrating the range of Jefferson's interests and offering a peek into his private life. Drawing on the best Jeffersonian scholarship of the last thirty years, Yarbrough's Introduction sets Jefferson's life and writing in context and illuminates the ways in which his understanding of human nature influenced his political views. A brief head note introduces each selection and provides crucial background information; footnotes offer concise biographies of Jefferson's correspondents and identify other important figures and events. An index and select bibliography are also included. 287pp.
