Reviews

A must buy book if you need to adding benefit. I have read through and i also am certain that i will likely to read through once again yet again in the future. Its been designed in an exceedingly simple way and is particularly merely after i finished reading this publication by which really modified me, modify the way i think.

(Mrs. Jacquelyn Gutmann)

MATHEMATICS, FROM THE POINTS OF VIEW OF THE MATHEMATICIAN, AND OF THE PHYSICIST: AN ADDRESS DELIVERED TO THE MATHEMATICAL AND PHYSICAL, SOCIETY OF UNIVERSITY COLLEGE, LONDON (CLASSIC REPRINT)

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Mathematics, From the Points of View of the Mathematician, and of the Physicist: An Address Delivered to the Mathematical and Physical, Society of University College, London If we were to question a man of average education, or even one of the majority of those who belong to the cultured class, as to what he conceives to be the nature of Mathematical Science, and as to what he thinks are the aims of those who cultivate it, we should probably receive a somewhat vague answer, conveying his impression that Mathematics is concerned with calculations carried on by means of processes involving a copious use of symbols and diagrams entirely unintelligible to the uninitiated. He might not improbably add that such symbols and diagrams are of no interest to anyone except a few individuals who have an unaccountable taste for such things, and happen to be endowed with a peculiar transcendental faculty the possession of which is quite unnecessary for other people, and which he himself does not possess, and moreover that he is quite happy without it. If pressed, our friend would probably admit that there are subjects, such as Arithmetic and Mensuration, which are extremely useful, and some knowledge of which is essential for various purposes, but that such subjects are hardly Mathematics, and that anything beyond them is of little or no concern to the world in general. If, as is likely, he had himself, at school, studied a little Geometry and Algebra, he would say that the former is largely concerned with difficult and tedious proofs of things that are either obvious or meaningless, and that the latter is concerned with juggling with...
